The Expropriating Authority shall adopt a Final Decision approving or rejecting an application only during the six-month period that begins on the date occurring forty-five (45) days after the effective date of the Preliminary Decision. This six-month period shall be referred to as the “Final Decision Period”, and such period shall be extended as provided for in paragraph 2 of this Article.

2. If one or more complaints are filed under Article 35 of the present law with respect to a Preliminary Decision – or any aspect thereof - adopted under Article 10 of the present law, the Final Decision Period established by paragraph 1 of this Article shall be extended by the number of days occurring between:

2.1. the date on which the first such complaint was filed; and

2.2. the date on which the competent court where such complaint(s) were originally filed has issued its judgment on all such complaints.

If an appeal is filed by the complainant, the Final Decision Period shall also be extended as provided for in paragraph 11 of Article 35 of the present law.

3. The Expropriating Authority shall not adopt a Final Decision affecting any property or rights that are the subject of such a complaint while such complaint is pending before such court. If one or more complaints have been filed under Article 35 of the present law challenging only certain aspects of a Preliminary Decision, the Expropriating Authority may, but shall not be required to, proceed to adopt a Final Decision with respect to any unchallenged aspect prior to the issuance of a court judgment on such complaints. Such a Final Decision may be adopted at any time during the Final Decision Period, including any extension thereof under paragraph 2 of this Article. The adoption of any such Final Decision shall not prejudice the authority of the Expropriating Authority to later adopt, within the concerned Final Decision Period (including any extension thereof under paragraph 2 of this Article), additional Final Decisions relating to property or rights that were the subject of such a complaint, if each such additional Final Decision is in compliance with the applicable court judgment or order issued under Article 35 of the present law.

4. Every Final Decision on expropriation shall:

4.1. comply with any applicable court order or judgment issued under Article 35 of the present law with respect to the Preliminary Decision;

4.2. otherwise be limited in scope – in terms of the property or rights to property to be expropriated – to no more than that authorized by the Preliminary Decision; and

4.3. contain:

4.3.1. the names and addresses of the Applicant, the Persons identified in the application pursuant to item 1.2 of Article 8 of the present law, and any other Person who has – subsequent to the date the application was accepted for processing but before the Final Decision is issued – asserted a claim to be an Owner or Interest Holder with respect to the concerned immovable property;

4.3.2. if the Final Decision approves the application, in whole or in part:

4.3.2.1. the location and number of each and every parcel of immovable property that is to be expropriated;

4.3.2.2. if less than entire area of any such parcel is to be expropriated and/or if less than all rights relating to any such parcel are to be expropriated, a specific description of the part and/or rights subject to the decision; and

4.3.2.3. the amount of compensation that the Office of Immovable Property Valuation has determined – in accordance with the present law – is to be paid to such Persons for the expropriated property, rights to property and/or direct damages caused by the expropriation;

4.3.2.4. the valuation determination prepared by such office as required by Article 22 of the present law; and

4.3.2.5. a description of any conditions that the expropriation is subject to;

4.3.3. if the Final Decision rejects the application, in whole or in part, an explanation setting forth a detailed description of the reasons for the rejection;

4.3.4. a statement that the Final Decision shall become effective on the date such decision has been published in both the Official Gazette of Kosovo and in a newspaper enjoying wide circulation in Kosovo in accordance with requirements of paragraph 6 of this Article and Article 43 of the present law; and

4.3.5. a notice advising the Applicant and any Person who is an Owner or Interest Holder with respect to property or rights affected by such Final Decision of their right to file a complaint with the competent court challenging such decision, or any aspect thereof, pursuant to Article 36 or 37 of the present law, within the thirty (30) day period specified in those Articles.

5. Within five (5) Business Days after adopting a Final Decision, the Expropriating Authority shall send such decision to the Applicant (unless the Expropriating Authority is the Applicant) and to the other Persons, who are required to be identified in the Final Decision by item 4.3.1 of this Article.

6. Within ten (10) Business Days after adopting a Final Decision, the Expropriating Authority shall publish such decision in the Official Gazette of Kosovo and in a newspaper enjoying wide circulation in Kosovo.

7. A Final Decision shall become effective on the date such decision has been published in accordance with all requirements of paragraph 6 of this Article and Article 43 of the present law.

8. If a Final Decision authorizes an Expropriation, no change in the ownership or other rights of Persons in or to the concerned property shall be effected or implemented until the compensation required by the Final Decision has been paid in accordance with Article 16 of the present law. Upon the payment of such compensation, the concerned property shall be registered in the name of the concerned Municipality (if the Expropriating Authority is a Municipal Public Authority) or the Republic of Kosovo (if the Expropriating Authority is the Government).

9. Persons owning or possessing the concerned property shall not be required to vacate or surrender such property until thirty (30) calendar days have passed from the date on which the compensation specified in the Final Decision has been paid in accordance with Article 16 of the present law.

10. The Applicant or any Owner or Interest Holder having a direct and material interest in the immovable property that is the subject of a Final Decision, whether or not identified in such decision, shall have the right to challenge such decision in accordance with Articles 36 or 37 of the present law by filing a complaint with the competent court in accordance with the provisions of those Articles.

11. Failure of the Expropriating Authority to formally take a Final Decision within the Final Decision Period as determined in accordance with paragraphs 1 and 2 of this Article shall constitute, by operation of the present law, a Final Decision rejecting the application in its entirety. Such a rejection shall be effective on the first Business Day that immediately follows the last day of the Final Decision Period. The Applicant may challenge such a Final Decision in accordance with the applicable provisions of the Law on Administrative Procedures as provided for in Article 39 of the present law.

Article 12

Registration of the Decision on Expropriation in the Cadastre

1. Immediately after adopting a Final Decision authorizing the expropriation of immovable property, the concerned cadastral body or bodies shall register such decision upon its submission by the Expropriating Authority.
2. Upon such registration, each Owner and Interest Holder with respect to the concerned property shall be prohibited from:
 - 2.1. transferring or granting, or attempting to transfer or grant, to any third person any ownership or other rights or interests in or to the concerned property, and
 - 2.2. undertaking any construction work on, above or under the surface of the concerned property.
3. If such Final Decision is subsequently revoked or cancelled, an Owner or Interest Holder with respect to the concerned property shall have the right to require the cadastral body to register any decision, order or final court judgment evidencing such revocation or cancellation.

Article 13 Expropriation of a Part of Immovable Property

If an Expropriating Authority issues a Preliminary Decision under Article 10 of the present law specifying its determination that the concerned public purpose justifies the expropriation of certain immovable property and/or rights to such property, and an Owner or Interest Holder with respect to such property and/or rights has good and sufficient reason to believe that the concerned public purpose can be achieved through the expropriation of a lesser amount of such property and/or rights, such Owner or Interest Holder shall have the right to file a complaint under Article 35 of the present law requesting the competent court to issue a judgment ordering the Expropriating Authority to reduce the scope of the Preliminary Decision to exclude that part of the Owner's or Interest Holder's property and/or rights not needed for the achievement of the public purpose. Any such complaint must be filed with the court within the time provided by Article 35 of the present law.

CHAPTER IV TRANSFERS OF EXPROPRIATED PROPERTY TO A BENEFICIARY

Article 14 Transfers of Expropriated Property to a Beneficiary; Allocation of Costs

1. If the Government intends to expropriate surface rights to enable the holder of a license or permit issued by the ICMC to exercise the holder's rights under such license or permit, the Government shall first require such holder to execute a written commitment to pay the required compensation to the expropriated person(s). The Government shall conclude the Expropriation Process only after the payment of such compensation by the licensee or permit holder. The Government shall then grant a right of use over the concerned property to the concerned licensee or permit holder. The scope and duration of such right of use shall be reasonably related to enabling the licensee or permit holder to exercise its rights under the concerned license or permit.
2. If the Government expropriates property under paragraph 3 of Article 4 of the present law for the purpose of enabling the implementation of an Infrastructure Contract awarded by a Tendering Body, the Government may sell, lease, grant, assign or transfer a right of use and/or management over such property to the concerned contractor or Public-Private Partnership. The concerned contractor or Public-Private Partnership shall be required to bear the cost of the expropriation and to pay all required expropriation compensation unless:
 - 2.1. the concerned contract contains one or more provisions specifically providing for another allocation of such expropriation costs/compensation; and

2.2. such provision(s) were clearly contained in the contract when it was put out for tender. If an Infrastructure Contract is awarded by a Tendering Body, and such contract has as one of its objects – but not as its exclusive object - the award of a right to acquire a license or permit from the ICMM, this paragraph 2, and not paragraph 1, of this Article, shall govern the allocation and payment of any costs related to the expropriation of necessary surface rights.

3. If necessary to accomplish the legitimate public purpose for which a piece of property was expropriated by the Government under items 3.1 or 3.3 of Article 4 of the present law, the Government may sell, lease, grant or transfer a right of use and/or management over such property to any of the following:

3.1. a Central Public Authority;

3.2. a Municipality;

3.3. a POE;

3.4. a Public-Private Partnership;

3.5. a private Person, but only if such private Person:

3.5.1. has been selected in an open transparent and competitive tendering procedure established pursuant to a law of Kosovo and such procedure had as its object, or one of its objects, the award of such right of use or management, or

3.5.2. holds a lawfully issued license from the competent Public Authority and the transfer is necessary to enable such Person to exercise its rights under such license.

4. If a POE or a Municipality acquires from the Government a right of use over expropriated property pursuant to item 3.2 or 3.3 of this Article, such POE or Municipality shall be required to pay or reimburse to the Government the cost of the expropriation and all required expropriation compensation.

5. If a Public-Private Partnership or a private Person acquires from the Government a right of use over expropriated property pursuant to item 3.4 or 3.5 of this Article, such Partnership or Person shall be required to pay or reimburse to the Government the cost of the expropriation and all required expropriation compensation unless a lawful contract that has been duly executed by the Government or another authorized Central Public Authority contains one or more provisions specifically providing for another allocation of the concerned expropriation costs/compensation.

6. If one of the foregoing provisions of this Article permits the Government to sell, lease, grant, assign or transfer a right of use and/or management to a POE, a Public-Private Partnership or a private Person, the Government may also sell, lease, grant, assign or transfer such a right to any lawful heir, successor, assign or transferee of such POE, Public-Private Partnership or private Person. Furthermore, a POE, Public-Private Partnership or private Person that acquires such a right may freely sell, assign, transfer, hypothecate, mortgage, pledge or otherwise alienate such right, except as may be provided otherwise by contract.

7. No Expropriating Authority may sell, lease, grant or transfer to a third party any right or interest in expropriated property except as specifically authorized by this Article. Any permitted sale, lease, grant or transfer of a right of use and/or management by an Expropriating Authority shall be set forth in a formal written document, and such document shall be formally approved by a written decision of the concerned Expropriating Authority; such decision shall specify the public purpose justifying such sale, lease, grant or transfer. Such decision shall be published in the Official Gazette within five Business Days after its adoption. Both the document and the decision shall be duly filed in the applicable cadastral records.

8. It is expressly provided that no right or interest in property expropriated by the Government for a purpose specified in item 3.2 or 3.4 of Article 4 of the present law shall be sold, leased, granted or transferred to any Person other than the concerned Central Public Authority for:

8.1. in the case of property expropriated pursuant to item 3.2 of Article 4 of the present law, a period of ten (10) years following the conclusion of the expropriation; and

8.2. in the case of property expropriated pursuant to item 3.2 of Article 4, a period of fifty (50) years following the conclusion of the expropriation.

During the applicable period, no private Person shall be permitted to use or exploit such property; however, as appropriate, public access to such property may be permitted at reasonable times and under reasonable conditions. The responsibility for the supervision and maintenance of such property shall be assigned to the responsible Central Public Authority.

CHAPTER V COMPENSATION

Article 15 Basic Rules Governing the Determination of Amount of Compensation

1. Compensation shall be paid on the basis of the market value of the property as determined in accordance with the further provisions of the present law and the subsidiary legislation issued pursuant to paragraph 6 of this Article.

2. Compensation shall include the compensation of any demonstrable direct damages incurred by the expropriated person due to the expropriation plus the value of the immovable property expropriated, including – if applicable - its accessory parts and fruits.

3. Notwithstanding the foregoing, it is specifically provided that, in determining the amount of compensation owed, the following shall be excluded and not taken into account:

3.1. the cost or value of any improvements to the property, facilities constructed or enlarged on the property, or trees and crops planted on the property after the date on which the publication requirements of paragraph 8 of Article 8 of the present law were fulfilled;

3.2. any changes in the market value of the immovable property occurring after the earlier of the following:

3.2.1. the date of the adoption of the decision authorizing preparatory activities on such property, or

3.2.2. the date of the initial submission of the application for expropriation requesting the expropriation of such property; and

3.3. any changes in the market value of the immovable property occurring prior to the events specified in item 3.2 of this paragraph, if such changes in value can be demonstrated to be attributable to price or market manipulation or speculation by Persons, or their relatives or associates, who were in possession of information about the impending or potential expropriation of the concerned property prior to those events.

4. Except as specifically provided in paragraph 5 of this Article, no compensation shall be owed or paid for the loss of any building or other structure (of any description) if such building or structure was:

4.1. constructed in violation of any applicable law or regulation; and

4.2. was not capable of being legalized under the law of Kosovo applicable on the date of the Final Decision authorizing its expropriation.

If, on the date of such Final Decision, an illegally constructed building or structure is capable of being legalized but has not been so legalized, compensation for the loss of such building or structure shall be strictly limited to the documented costs incurred in its construction.

5. As an exception to paragraph 4 of this Article, it is specifically provided that compensation shall be paid for expropriated buildings that were constructed illegally on privately owned immovable property by the owner of such property if, and only if:

5.1. on the date actual construction activity commenced, it was impossible for the owner to obtain the necessary construction permit from the concerned Municipal Authority because, as of such date, no urban or spatial plan covering such property had yet been issued; and

5.2. in all other respects neither the building nor its construction were in violation of any other law or regulation then applicable.

An owner of such a building shall have the burden of proving the date on which actual construction activity commenced and that both the building and its construction did not violate any other law or regulation then applicable.

6. The Ministry of Economy and Finance shall issue subsidiary legislation establishing a detailed methodology for calculating the compensation to be paid for expropriated property and expropriation-related damages. Such subsidiary legislation shall be consistent with:

6.1. the requirements of this Article;

6.2. the requirements of the decisions of the European Court of Human Rights; and

6.3. any principles or guidelines on the calculation of such compensation that have been issued or suggested by international financial organizations.

Such subsidiary legislation shall also take into account the valuation standards issued by the Ministry of Economy and Finance pursuant to paragraph 1 of Article 12 of UNMIK Regulation 2003/29 "On Taxes On Immovable Property in Kosovo".

Article 16 Payment of Compensation

1. Except as provided in paragraph 5 of this Article, all compensation shall be paid in Euros or another freely convertible currency.

2. The Expropriating Authority shall pay, or shall require the applicant or anticipated Beneficiary – if any - to pay, the amount of compensation specified in the Final Decision to the affected Owners and Interest Holders. The compensation required by the Final Decision shall be:

2.1. the amount established in the concerned valuation determination plus;

2.2. interest on such amount that has accrued between the effective date of the Final Decision and the date of payment. Such interest shall accrue at a rate of seven percent (7%) simple annual interest and compound annually.

3. If a Person refuses to accept such compensation, it shall be put into a trust account in such Person's name at the CBK. If a dispute arises regarding the identity of the Person lawfully entitled to receive a payment of such compensation, that amount shall be deposited in a trust account at the CBK for a beneficiary yet to be determined, and the dispute submitted to the competent court for resolution. Any amount put into such a trust account shall be deemed to have been "paid" for the purposes of the present law.

4. If a person files a complaint with the competent court pursuant to Article 36 of the present law challenging the adequacy of the compensation provided for in the Final Decision, and the court issues a judgment requiring the payment of additional compensation, the Expropriating Authority shall pay, or shall require the applicant or anticipated Beneficiary – if any - to pay, such additional compensation.

5. If the Government is the Expropriating Authority, and the achievement of the concerned public purpose requires the expropriation of more than twenty (20) parcels of immovable property, the compensation requirement of the present law may be satisfied by providing any expropriated Person who agrees with:

5.1. immovable property having a value that is equal to the compensation owed; or

5.2. a combination of cash and immovable property, which together have a value equal to the compensation owed.

6. The amount of expropriation compensation specified in a Final Decision shall be paid in full within two (2) years from the effective date of the decision. If the required compensation is not paid within such time, the Person to whom such compensation is owed may thereafter file a complaint with the competent court requesting the court to issue an order revoking and canceling such decision.

Article 17 Compensation in the Event of the Termination of a Real Servitude

1. If an expropriation of immovable property results in the termination of a real servitude encumbering such property, the Final Decision shall require the Expropriating Authority to pay reasonable compensation, in an amount determined by the Office of Property Valuation, to the Persons who have been damaged by the loss of such servitude. Such compensation shall be an amount equal to the value of the servitude plus any direct damages caused by the loss of such servitude. Unless an applicable and lawfully awarded contract provides otherwise, the Expropriating Authority may order the Applicant or anticipated Beneficiary – if any – to pay such compensation.

2. If the loss of the servitude negatively affects the value of another parcel of property that had been served by such servitude, the Owner of such other parcel shall have the right to file a complaint under Article 36 of the present law, requesting the competent court to issue a judgment ordering the Expropriating Authority to pay compensation for such loss in value, if and to the extent such compensation is not already provided for in the concerned Final Decision.

Article 18 Compensation in the Event of a Partial Expropriation or the Termination of a Security Interest, a Personal Servitude, a Construction Right, a Right of Preemption, a Usufruct or a Right of Use

1. If, as a result of an expropriation, a personal servitude, construction right, right of preemption, usufruct or right of use on or to the expropriated property is terminated, the Final Decision shall require the Expropriating Authority to pay reasonable compensation, as determined by the Office of Property Valuation, to the Persons who have been damaged by the loss of such servitude or right. Unless an applicable and lawfully awarded contract provides otherwise, the Expropriating Authority may order the Applicant or anticipated Beneficiary – if any – to pay such compensation.

2. The holder of any lawful security interest in or to expropriated property or rights securing a debt (such as a lien, pledge, mortgage, hypothecation or other security interest) shall be entitled to receive, from the Expropriating Authority, that part of the required expropriation compensation that is sufficient to discharge such debt in full. If the amount of the required expropriation compensation is insufficient to discharge the debt in full, the debtor (and - if applicable - any guarantor of the debt) shall be exclusively liable for the deficiency in accordance with any contract governing the obligations relating to the debt.

3. If a Final Decision authorizes the expropriation of part of a parcel of immovable property and, as a result, the un-expropriated part suffers a loss of value, or can reasonably be expected to suffer a loss of value, the Owner of the un-expropriated part such shall have the right to file a complaint under Article 37 of the present law requesting the competent court to issue a judgment ordering the Expropriating Authority to pay compensation for such loss in value, if and to the extent such compensation is not already provided for in the Final Decision.

Article 19 **Compensation in the Event of the Termination of a Lease Contract**

1. Subject to the lessor's compliance with the obligation imposed by paragraph 2 of this Article, if, as a result of the expropriation of property, a lease contract with respect to such property is terminated, the Expropriating Authority shall compensate the lessee for any damage incurred due to the termination of such lease contract. Unless an applicable and lawfully awarded contract provides otherwise, the Expropriating Authority may also order the applicant or anticipated Beneficiary – if any – to pay such compensation.

2. If the lease contains one or more provisions giving the lessor the right to terminate the lease with or without cause prior to the lease contract's stated expiration date, the lessor shall, immediately after the effective date of the Final Decision authorizing the expropriation of the concerned property, exercise that right and provide the lessee with any prior notice of termination required by the lease. The adoption of the Final Decision by the Expropriating Authority shall itself be deemed sufficient cause for such termination. Any failure or delay of the lessor to comply with the obligation imposed by this paragraph shall make the lessor, and not the Expropriating Authority, liable for any damages to the lessee resulting from such failure or delay.

Article 20 **Temporary Accommodation**

In the event of an expropriation of a building or of a specific part of a building that has been lawfully constructed and that is used as a dwelling, the Expropriating Authority shall provide the inhabitants with temporary accommodations for a period of four (4) months following the expiration of the thirty (30) calendar day period provided for in paragraph 9 of Article 11 of the present law, unless the Applicant or anticipated Beneficiary – if any - and the inhabitants agree otherwise. The Expropriating Authority may fulfill this obligation in whole or in part by allowing the inhabitants to continue to occupy the expropriated building for all or any part of such four (4) month period. Unless an applicable and lawfully awarded contract provides otherwise, the Expropriating Authority may order the Applicant or anticipated Beneficiary – if any – to bear the cost of providing any such temporary accommodation.

CHAPTER VI **DETERMINATION OF AMOUNT OF COMPENSATION**

Article 21 **Competent Authority for the Implementation of the Valuation Procedure**

1. The Ministry of Economy and Finance shall establish, within its Department of Property Tax, an Office of Immovable Property Valuation which shall be the competent public authority for valuing any immovable property that is subject to an expropriation procedure by any Expropriating Authority.

2. The Office of Immovable Property Valuation may engage other experts and establish committees to inspect and assist in the valuation of the property to be expropriated. Private experts may be engaged pursuant to a lawful procurement procedure.

Article 22
Valuation of Immovable Property

1. With respect to the valuation of rights in immovable property, the Office of Immovable Property Valuation shall value such property in accordance with the subsidiary legislation issued pursuant to paragraph 6 of Article 15 of the present law. Such valuation shall take into consideration, if available, the most recent valuation of the property made by the Municipality where the property is located pursuant to its obligations under Article 12 of UNMIK Regulation 2003/29 "On Taxes On Immovable Property in Kosovo".

2. During the valuation process, Owners and Interest Holders shall have the right to submit their written views concerning such valuation to the Office of Property Valuation. All communications between the Office of Property Valuation and any such Owner or Interest Holder, or a Person acting on their behalf, shall be done in writing only, and all such written communications shall be fully subject to the public disclosure requirements of the Law on Access to Official Documents.

3. The Office of Immovable Property Valuation shall issue in writing its final valuation determination within one hundred fifty (150) days after the date it received the application from the Expropriating Authority pursuant to paragraph 6 of Article 8 of the present law. Such determination shall contain:

3.1. the overall valuation of the property being expropriated with a breakdown, if necessary, of the components of such valuation;

3.2. a valuation of any and all other damages required to be paid by the present law;

3.3. a description of the specific methodology used to make such valuations;

3.4. an explanation as to how such methodology, and the resulting valuations, comply with the requirements of paragraph 6 of Article 15 of the present law and the subsidiary legislation issued pursuant thereto;

3.5. the details of the Persons to whom compensation is to be paid and the amount of compensation to be paid to each; and

3.6. the details of the Persons, if any, who sought compensation but were determined not to be entitled thereto.

This determination shall be provided to the Expropriating Authority, which shall attach it to the Final Decision, if one is adopted.

4. Any Owner or Interest Holder who disagrees with any aspect of the valuation determination shall have, after the effective date of a Final Decision attaching such determination, the right to challenge such valuation determination, in whole or in part, by filing a complaint with the competent court in accordance with Article 36 of the present law.

Article 23
Costs

1. The costs of the valuation procedure shall be borne by the Expropriating Authority. Unless an applicable and lawfully awarded contract provides otherwise, the Expropriating Authority may also order the Applicant or anticipated Beneficiary – if any – to pay such costs.

2. The costs of the valuation procedure shall be the costs incurred by the Office of Immovable Property Valuation in connection with the valuation of the property and the associated rights and interests therein, and the determination of the amount of compensation to be paid to affected Persons. The Office of Immovable Property Valuation shall calculate and determine the amount of such costs and provide a detailed written determination thereof to the Expropriating Authority. If the Applicant or anticipated

Beneficiary is required to pay such costs, the Expropriating Authority shall provide this determination to the party that is required to bear the costs.

3. Other costs incurred by the Expropriating Authority in connection with the expropriation procedure (including the costs related to the preparation of documents, the publication of notices, the payment of expert fees, administrative expenses and cadastral fees) shall also be borne by the Expropriating Authority. Unless an applicable and lawfully awarded contract provides otherwise, the Expropriating Authority may also order the Applicant or anticipated Beneficiary – if any – to pay such costs. If the Expropriating Authority requires the Applicant or an anticipated Beneficiary to pay such costs, the Expropriating Authority shall prepare, in writing, a detailed determination of all such costs and provide this determination to the party that is required to bear the costs.

4. If the Applicant or the anticipated Beneficiary, if any, is required to pay any such costs, and such party disagrees with any determination of such costs, such party may demand, within thirty (30) days, that such determination be reviewed by the Expropriating Authority. The Expropriating Authority shall issue a decision in writing affirming or modifying such determination within ninety (90) calendar days after receiving such demand. Failure of the Expropriating Authority to act within such ninety (90) day period shall be deemed an affirmation of the determination. If the Applicant or anticipated Beneficiary remains dissatisfied with such determination, such party shall have the right to file a complaint with the competent court challenging such decision and/or determination.

CHAPTER VII RENOUNCEMENT OF EXPROPRIATION

Article 24 Renouncement of Expropriation

1. The Applicant may renounce its expropriation request, in whole or in part, at anytime prior to the adoption of a Final Decision on its application by providing a written notice to that effect to the Expropriating Authority. In the event of such a renouncement, the Expropriating Authority shall immediately:

1.1. adopt a decision canceling the expropriation procedure, or the relevant part thereof;

1.2. publish such decision in the Official Gazette and a newspaper enjoying wide circulation in Kosovo, and

1.3. send a copy of such decision to all previously identified Owners and Interest Holders with respect to property that is no longer subject to the expropriation procedure.

2. In the event of a renouncement, the Applicant or the anticipated Beneficiary (if the renouncement was at the anticipated Beneficiary's request) shall:

2.1. reimburse all costs incurred by the Expropriating Authority and the Office of Immovable Property Valuation in conducting the expropriation procedure or – in the event of a partial renouncement – the portion of such costs allocable to the part of the procedure that has been cancelled; and

2.2. reimburse to the Owners and Interest Holders whose property is no longer subject to the expropriation procedure the documented costs and damages incurred as a direct consequence of the expropriation procedure.

3. The Expropriating Authority shall, if necessary to ensure the payment of the costs and damages specified in paragraph 2 of this Article, use the funds covered by a performance bond posted by the Applicant or anticipated Beneficiary under paragraph 4 of Article 8 of the present law.

**CHAPTER VIII
TRANSFER OF POSSESSION AND OWNERSHIP**

**Article 25
Possession**

The Expropriating Authority, Applicant or Beneficiary (if any), may acquire possession over the expropriated property only after the expiration of the thirty (30) calendar day period provided for in paragraph 9 of Article 11 of the present law.

**Article 26
Ownership**

1. As required by paragraph 8 of Article 11 of the present law, no change in the ownership or other rights of Persons in or to the property shall be effected or implemented until the Final Decision becomes effective and the compensation specified in the decision has been paid in accordance with Article 16 of the present law. As soon as such conditions have been fulfilled, the relevant cadastral office shall register the property in the name of:

1.1. the concerned Municipality, if the Expropriating Authority is the Expropriating Authority of a Municipality, or

1.2. the Republic of Kosovo, if the Expropriating Authority is the Government.

The cadastral office shall also register any right of use or management sold, leased, transferred or granted pursuant to Article 14 of the present law.

2. Where necessary to effect the expropriation of a part of a parcel of immovable property, the cadastral office shall divide such parcel.

3. Following the registration of the property in the name of the Municipality or the Republic of Kosovo, all pre-existing rights or interests in such property shall be cancelled and the cadastral office shall ensure that such cancellation is reflected in the relevant records. If, however, the expropriation decision specifically indicates that a pre-existing right or interest is to remain in effect, in whole or in part, this cancellation requirement shall not apply thereto.

**CHAPTER IX
RETURN OF EXPROPRIATED PROPERTY**

**Article 27
Return of Expropriated Property**

1. A person whose ownership rights in immovable property have been expropriated, shall have the right, which may only be exercised within the ten-year period following the effective date of the Final Decision, to file a complaint with the competent court requesting such court to issue an order re-establishing the person's ownership rights in the concerned property, in whole or in part, if all of the following conditions are present:

1.1. the concerned property was not expropriated by the Government for a purpose specified by, or falling within the scope of item 3.3. of Article 4 of the present law;

1.2. the complainant provides substantial evidence to the court demonstrating:

1.2.1. that the expropriated property, or the relevant part thereof, has been substantially and actively used by the Expropriating Authority or a Beneficiary for a period of three (3) years or more for a purpose that is not a legitimate public purpose or related to a legitimate public purpose; or

1.2.2. that, during the eight-year period following the effective date of the concerned Final Decision, the expropriated property, or the relevant part thereof, was not actively used for any purpose; provided, however, that this reason may not be invoked as a basis for the return of property if there have been significant measures undertaken during the referenced eight-year period to prepare the property for a use that constitutes a legitimate public purpose; and

1.3. the complainant agrees:

1.3.1. to return any and all expropriation compensation paid or provided in connection with the expropriation of the property; and

2. The right of first refusal provided for by paragraph 1 of this Article, shall not apply if the concerned property was expropriated by the Government for a purpose specified by, or falling within the scope of, item 3.3 of Article 4 of the present law.

CHAPTER X TEMPORARY USE OF IMMOVABLE PROPERTY

Article 29 Conditions for Temporary Use

1. The Government may, by a formal written decision, decide to occupy and temporarily use any privately or publicly owned immovable property if such action:

CHAPTER XI LEGAL REMEDIES

Article 35 Complaints Challenging a Preliminary Decision on the Legitimacy of a Proposed Expropriation

1. If a Person is an Owner or an Interest Holder with respect to immovable property that is the subject of an expropriation procedure, and such Person reasonably believes that the concerned Preliminary Decision – or any aspect thereof - is contrary to one or more of the conditions established in paragraph 1 of Article 4 of the present law, such Person shall have the right to file a complaint with a court of competent jurisdiction challenging such Preliminary Decision, in whole or in part.

2. If the Expropriating Authority is the Expropriating Authority of a Municipality, the complaint shall be filed with the concerned municipal court. If the Expropriating Authority is the Government, the complaint shall be filed with the Supreme Court of Kosovo.

3. Any such complaint must be filed within thirty (30) calendar days after the effective date of the concerned Preliminary Decision as specified in paragraph 5 of Article 10 of the present law. If such a complaint is filed after the expiration of such thirty (30) calendar day period it shall be rejected by the court.

4. Within five (5) calendar days after filing such a complaint, the complainant shall ensure that five (5) accurate and complete copies of such complaint (including any attachments or documents filed therewith) are delivered by hand to the legal office of the concerned Expropriating Authority. If the complainant fails to comply with this requirement, the court shall reject the complaint.

5. The Expropriating Authority shall have forty-five (45) days after receiving the copies required by paragraph 4 of this Article to file its response with the court.

6. Immediately after receiving the response of the Expropriating Authority, the court shall:

6.1. handle the entire case as a matter of extreme urgency;

6.2. shall prioritize such case over all other matters being handled by the court;

6.3. shall issue its judgment on the case within ninety (90) calendar days after receiving the Expropriating Authority's response; and

6.4. shall schedule all proceedings in the case in a manner that will enable the court to issue its judgment within such ninety (90) calendar day period.

7. If the court determines that the Preliminary Decision, or an aspect thereof, fails to satisfy one or more of the conditions specified in paragraph 1 of Article 4 of the present law, the court may:

7.1. issue a judgment requiring the Expropriating Authority to terminate the expropriation procedure in its entirety, if the court determines that the entire procedure does not satisfy one or more of the conditions specified in paragraph 1 of Article 4 of the present law; or

7.2. issue a judgment requiring the Expropriating Authority to modify the Preliminary Decision and the scope of the expropriation procedure to exclude certain property and/or rights if the court determines that the expropriation of such property and/or rights would be contrary to one or more of the conditions specified in paragraph 1 of Article 4 of the present law.

8. The Expropriating Authority shall not issue a Final Decision with respect to any property or rights that are the subject of a complaint that has been timely filed under this Article until the court where such complaint was filed issues a judgment on that complaint.

9. Except as provided in paragraphs 10 and 12 of this Article, a judgment of a court under this Article shall be appealable in accordance with the generally applicable law governing such appeals.

10. Such an appeal must be filed within thirty (30) calendar days after the issuance of the judgment being appealed. Within five (5) calendar days after filing such an appeal, the appellant shall ensure that five (5) accurate and complete copies of such appeal (including any attachments or documents filed therewith) are delivered by hand to other party; if the appellant fails to comply with this requirement, the court shall reject the appeal. The other party shall have thirty (30) days after receiving such copies to file its response.

11. If an appeal is filed by the complainant against a judgment, or any aspect thereof, in favor of the Expropriating Authority, the filing of such appeal shall in no way impair the power or authority of the Expropriating Authority to take any action that is consistent with such judgment, including continuing with the conduct of the expropriation procedure, issuing a Final Decision on the expropriation and implementing such decision. The Expropriating Authority may, at its discretion, also delay the taking of any such action with respect to the property and/or rights that are the subject of such an appeal; in such event, the time period specified in paragraphs 1 and 2 of Article 11 of the present law for the issuance of a Final Decision with respect to such property and/or rights shall be appropriately extended; however the exercise of such discretion by the Expropriating Authority shall not impair its power or authority to take an action specified in the first sentence of this paragraph at any time prior to the issuance of a judgment on such appeal.

12. If the complainant prevails in its appeal, the appellate court shall:

12.1. if the Expropriating Authority has not yet issued a Final Decision with respect to the concerned property and/or rights (or any part thereof), issue a judgment ordering the Expropriating Authority to modify the Preliminary Decision to exclude any property or rights that are not then subject to a Final Decision, if the appellate court determines that the expropriation of

such property and/or rights would be contrary to one or more of the conditions specified in paragraph 1 of Article 4 of the present law; and/or

12.2. if the Expropriating Authority has issued a Final Decision with respect to the concerned property or rights (or any part thereof), issue a judgment ordering the Expropriating Authority to pay to the complainant:

12.2.1. the expropriation compensation and damages required by the other provisions of the present law, if such have not already been paid, and

12.2.2. an additional amount that is equal to two (2) times the amount of expropriation compensation required by the present law for any property and/or rights that the appellate court determines were expropriated in violation of paragraph 1 of Article 4 of the present law.

13. If the appeal is filed by the Expropriating Authority against a judgment, or any aspect thereof, in favor of the complainant, the appellate court shall:

13.1. handle such appeal as a matter of extreme urgency;

13.2. shall prioritize such appeal over all appeals being handled by the appellate court;

13.3. shall issue its judgment on the appeal within ninety (90) days after receiving the appeal; and

13.4. shall schedule all proceedings in the appeal in a manner that will enable the appellate court to issue its judgment within such ninety (90) day period.

Article 36 **Complaints Challenging the Adequacy of Compensation**

1. If an Expropriating Authority issues a Final Decision under Article 11 of the present law, any concerned Owner or Interest Holder with respect to property and/or rights expropriated by such decision may file a complaint with a court of competent jurisdiction challenging the amount of compensation and/or damages that such decision provides shall be paid to such Owner and/or Interest Holder.

2. If the Expropriating Authority is the Expropriating Authority of a Municipality, the complaint shall be filed with the concerned municipal court. If the Expropriating Authority is the Government, the complaint shall be filed with the Supreme Court of Kosovo.

3. Any such complaint must be filed no later than thirty (30) calendar days after the effective date of the concerned Final Decision as specified in paragraph 7 of Article 11 of the present law. If such a complaint is filed after the expiration of such thirty (30) day period it shall be rejected by the court.

4. Within five (5) calendar days after filing such a complaint, the complainant shall ensure that five (5) copies of such complaint are delivered by hand to the legal office of the concerned Expropriating Authority. If the complainant fails to comply with this requirement, the court shall reject the complaint.

5. The Expropriating Authority shall have thirty (30) calendar days after receiving the copies required by paragraph 4 of this Article to file its response with the court.

6. If a complaint is filed under this Article, the court shall have the authority to re-calculate the amount of compensation and/or damages specified in the concerned decision in accordance with the requirements of the present law. If the court determines that the concerned decision specifies an amount of expropriation compensation and/or damages that is less than or greater than the amount required by the present law, the court shall issue a judgment modifying the Final Decision to adjust the amount of expropriation compensation and/or damages owed to the complainant.

7. A judgment of a court under this Article shall be appealable in accordance with the generally applicable law governing such appeals.

8. Neither the filing of a complaint under this Article, nor the filing of an appeal with respect to a judgment on such a complaint, shall have any effect on the effectiveness of the concerned decision or the power or authority of the Expropriating Authority to continue with the implementation of the concerned decision. The amount of compensation and/or damages specified in such decision shall be paid in accordance with the applicable requirements of the present law; however the payment of such compensation and/or damages shall not prejudice the court's authority under paragraph 6 of this Article to issue a judgment modifying the amount of compensation and/or damages owed. If the court increases the amount of compensation owed, the Expropriating Authority shall pay (or shall order the applicant or Beneficiary to pay) the amount of the increase. If the court reduces the amount of compensation and/or damages owed, the persons who received excess compensation or damages shall be ordered to return the amount of such excess to the party who paid it.

Article 37

2. If the Expropriating Authority is the Expropriating Authority of a Municipality, the complaint shall be filed with the concerned municipal court. If the Expropriating Authority is the Government, the complaint shall be filed with the Supreme Court of Kosovo.

3. Any such complaint must be filed no later than thirty (30) calendar days after the effective date of the concerned Final Decision. If such a complaint is filed after the expiration of such thirty (30) day period it shall be rejected by the court.

4. Within five (5) calendar days after filing such a complaint, the complainant shall ensure that five (5) copies of such complaint are delivered by hand to the legal office of the concerned Expropriating Authority. If the complainant fails to comply with this requirement, the court shall reject the complaint.

5. The Expropriating Authority shall have thirty (30) calendar days after receiving the copies required by paragraph 4 of this Article to file its response with the court.

2. All other legal disputes relating to an act taken or a decision adopted by a Public Authority under the authority of the present law shall be subject to and governed by the applicable provisions of the Law on Administrative Procedure; provided, however, that any provision of the Law on Administrative Procedure eliminating or unreasonably restricting the right of an affected Person (a Person who has been specifically affected by such an act or decision) to file a complaint with a competent court challenging such act or decision shall be not be applied.
